CPCs disguise themselves as health clinics. The Pregnancy Resource Center of Addison County is registered as a Religious Organization by the Addison County Chamber of Commerce.

“At a CPC in Brooklyn, N.Y., a pamphlet declared that ‘the condom’s biggest flaw is that those using it to prevent the conception of another human being are offending God.’”

On the PRCAC’s website, they state they offer counseling for those who suffer from Post Abortion Stress Syndrome (PASS).

Post Abortion Stress Syndrome (PASS) is not a term that is accepted by the American Psychological Association and the American Psychiatric Association.

CPCs are anti-abortion. The PRCAC states that “you deserve to know the facts and we offer evidence-based abortion information.” Many CPCs have claimed that “having an abortion was linked to an increased risk of breast cancer, infertility, miscarriage, and/or the made-up “post-abortion depression” that results in suicide. These are blatant lies that have been disproved and rejected by the medical community.” (NARAL).
